REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The applicant has claimed uniquely distinct features which are not found in the prior art, either singularly or in combination. In the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to disclose (a) inserting the memory chip card into the terminal, (b) calculating, in the terminal, a secret code CSC, according to a cryptographic function F of a number of variables comprising at least a code CSN identifying the memory chip card and the value of said counter, (c) authenticating the terminal by the card when the calculated secret code CSC, is identical to a code CSCp recorded in a memory of the card at the end of a previous authentication operation, (d) carrying out a desired transaction and modifying the value of said counter, (e) calculating, in the terminal, a new secret code CSCz according to the cryptographic function F of the code CSN identifying the memory chip card and the new value of said counter, (f) updating the memory chip card for the next transaction by recording, in said memory, the new secret code CSC2 calculated by the operation (e).

These features are not found or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
